Road Construction Update Is Now Available for Citizens to View:

June 1, 2020 SAGINAW, MI – The warm weather in Saginaw brings many wonderful things, including road improvements and construction. Beth London, Deputy Director of Public Services, and the Engineering Division have provided City Council and citizens with an update on future road and construction projects in the city. The presentation will be broadcast on SGTV, Channel 191, every day in June at 12pm noon and 8pm. Citizens can also view the presentation on our YouTube channel at <https://www.youtube.com/user/CityofSaginawMI>.

Road construction for 2020 includes mill and resurfacing projects planned for N. Carolina Street, Adams Boulevard, and N. 6th Avenue. Citizens will also notice work on several railroad crossings and complete reconstruction on Niagara Street and Hardin Street. There will also be several ADA sidewalk ramps installed and sidewalk replacements in the city during 2020.

The mission of the City of Saginaw is to provide high quality services to ensure an inclusive, safe, and vibrant community in which to live, work, learn, and play.

Improving our roads has been and will continue to be a key priority for the City of Saginaw. Although these projects can cause detours and travel delays, better roads enhance travel and safety in our neighborhoods and ultimately lead to the long-term greater good of our community.

For up-to-date information on current road projects in the City of Saginaw, visit <https://www.saginaw-mi.com/departments/publicservices/rightofway/projects/closedstreets.php>
